

Individuality Is Too Much Work!

How to Make a Good Unoriginal Movie

Nia Taylor

Dr. Ruvini Jayamaha, Dr. Sudhashree Sayenju

METHODS

I firstly conducted exploratory analysis to see how many original vs. non-original movies were in the dataset as well as the percentage of original vs non-original movies by year. Next, I calculated the mean rating of movies based on if a movie was original or not. Since the data was not normally distributed, I conducted a Kruskal Wallis test to determine
